1010 Side Bending Neon Strip Data Sheet

- Using silicone extrusion process, 10*10Mini size design
- Good Quality & Be er mixed color lighing elect, no dark space
- Highly Angle of irradia o, So and smooth light
- One End Powered max 5m
- Food-grade environmentally friendly silicone material.
- Waterproof grade IP67
- 5 years warranty

Product Specifica ons

P∕N	LED Quan ty	CCT	CRI	LED (SM)	LUMENS (lm/m)	Vf.	Current (mA/M)	Power (W/M)	Out Length (MM)	Max Run (M)
RL-FV2406140283510-8XX-FWS1010	2835	2700	80	140	350	24	417	10	50	5
		3000			350					
		4000			400					
		6000			400					

Other Specifica ons

Protec on grade	IP67	
Working temperature(°c)	-25~+60	
Storage environment temperature (°c)	-25~+70	
Standard length	5	
Maximum cascade length(m)	5	
weight	/	

Remark

- The test environment temperature is 25±2°C;
- The above data are typical values, the actual parameters of the product may be dierent from the typical data; the data is subject to change without no ce;
- \bullet The above "/" means that this parameter is not required for the time being.

Applied Standards

SELIGHL

Installa on

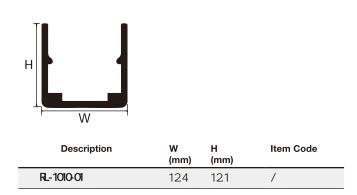

Note: Due to the dierent types and a ributes of neon lights, please refer to the, line marks for the bending radius

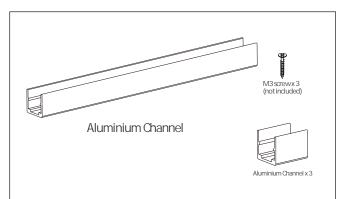

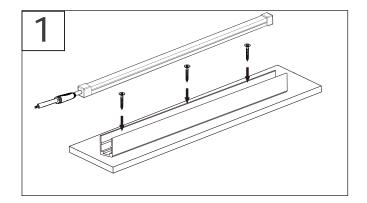

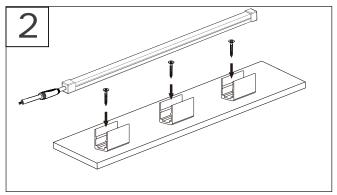

Moun ng with aluminium profiles

Install with the screws provided. Do not use screws of other types or sizes that do not meet requirements.

Installa on Guidelines for LED Light Strips

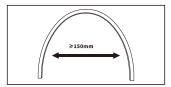

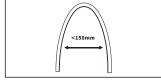

1. During LED strip installa on, ensure to uncoll the strip loop by loop and maintain perpendicular alignment with the moun ing profile. Avoid twis ing or kno ing of the strip at all imes

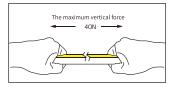

2.Align the LED strip with the opening of the profile, gently ii and press the strip into the profile, and strictly avoid excessive bending or II Ing of the strip

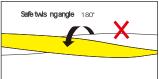

3.Align the LED strip with the opening of the profile, gently II and press the strip into the profile, and strictly avoid excessive bending or II Ing of the strip.

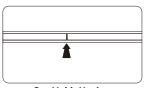

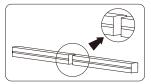

The safe twis ing angle for the LED strip shall not exceed 180°.

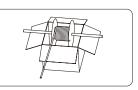

Warning sign

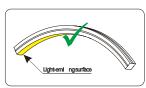

Ou able Marking Area (on the bo om or side of the product)

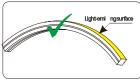

Neat and smooth cut

Mount the roll on a rod over the box

Top Bend

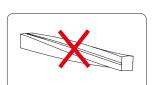

Side Bend

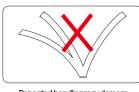

Do not bend le or right

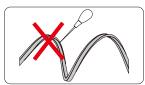

Do not leave uneven cuts

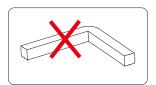

Do not twist during use

Repeated bending may damage electronic drouits

Do not puncture or scratch with sharp

Do not bend at sharp angles

- 1. The cuing marks are located on the PCB. Refer to the product cuing line windowor laser markings on the surface to iden fy the trimming posi on.
- 2 During transporta on and applica on, please observe the above warning labels. Proper handling ensures op mal performance and user sa sfac on.

Common product faults and their troubleshoo ng methods

Fault Phenomena	Possible Causes	Troubleshoo ng Methods		
All lightso	1. Mains power failure	Power on		
	2 Open drouit or short drouit at switching power supply output triggering auto-protec on	Troubleshoot and restore power		
	3. Reverse polarity at LED strip power input	Check wire connec on status to ensure correct polarity		
Par al lightso	1.Par al switching power supply failure	Inspect power supply system and resolve faults		
	2 Wiring error in par al LED strip drouits			
	3. Reverse polarity in par al LED strips	Correct wiring		
LED uneven brightness or insu dent brightness	1. Power supply overload	Replace with higher-power supply according to load		
	2. Excessive line loss in switching power drouits or significant line loss discrepandes	Maintain LED strip opera ngvoltage within ±5% of rated voltage 1. Shorten power cable length between power supply and LED strip or use larger gauge wires, 2. Ensure number of LED strips per drouit max allowed cascadir quan ty and keep cascading quan es similar per drouit).		
	3. Excessive serial connec on of LED strips	Adjust LED strip quan typer power branch to meet max allowed cascading requirements per circuit		
LED flickering	1. Poor contact at connec on points	Iden fy and resolve poor contact points		
	2.9witching power supply malfunc on	Replace switching power supply		

- If the external flexible cable of this product is damaged, the cable must be replaced by the manufacturer or similarly qualified personnel to prevent hazards.
- For specific installa on arrangements and precau ons, refer to the product user manual.
- Data in this specifica on is based on standard products. Actual delivered products may vary, subject to physical measurements.
- All product diagrams in this specifica on are schema c diagrams. Actual delivered products may dier, subject to physical objects
- Technical modifica ons may be implemented without prior no ce.
- Shenzhen Meishang Ligh ng Co., Ltd. reserves the final interpreta on rights of this manual.
